

case A5: 12 spaces, first line 394.262pt, bringing "limomom" up needs each of 13 spaces at 0.9511 x nominal
known output engine before margin further width column narrow never printed shorter limem limomom
and the rest of this case sits on the second line.

case A10: 12 spaces, first line 392.865pt, bringing "rilibemum" up needs each of 13 spaces at 0.9014 x nominal
known engine output before margin further width narrow shorter never printed column lilewo rilibemum
and the rest of this case sits on the second line.

case A15: 12 spaces, first line 391.523pt, bringing "rilimemum" up needs each of 13 spaces at 0.8497 x nominal
engine known before output margin further width narrow shorter never printed space lilililile rilimemum
and the rest of this case sits on the second line.

case A20: 12 spaces, first line 390.104pt, bringing "lumumumo" up needs each of 13 spaces at 0.8010 x nominal
engine before known output margin width narrow further never printed shorter space tigomo lumumumo
and the rest of this case sits on the second line.

case A25: 12 spaces, first line 403.766pt, bringing "lililawem" up needs each of 13 spaces at 0.7500 x nominal
margin output further known narrow engine before shorter printed width handed column lilicum
lililawem and the rest of this case sits on the second line.

case A30: 12 spaces, first line 402.347pt, bringing "limomom" up needs each of 13 spaces at 0.7010 x nominal
margin output further engine known narrow before shorter printed width column spacing womo
limomom and the rest of this case sits on the second line.

case A35: 12 spaces, first line 401.016pt, bringing "rilibemum" up needs each of 13 spaces at 0.6492 x nominal
output margin known further engine before narrow shorter width handed printed never gumum
rilibemum and the rest of this case sits on the second line.

case A40: 12 spaces, first line 399.597pt, bringing "rilimemum" up needs each of 13 spaces at 0.5999 x nominal
output margin known engine further before narrow shorter width printed column never sumum
rilimemum and the rest of this case sits on the second line.

case A50: 12 spaces, first line 399.784pt, bringing "lumumumo" up needs each of 13 spaces at 0.5015 x nominal
output margin known engine further before narrow shorter width column printed never lilitamo
lumumumo and the rest of this case sits on the second line.

case B5: 5 spaces, first line 413.831pt, bringing "lililawem" up needs each of 6 spaces at 0.9502 x nominal
accommodated consideration characteristically typographical internationalization lililililsumom lililawem
and the rest of this case sits on the second line.

case B10: 5 spaces, first line 411.576pt, bringing "limomom" up needs each of 6 spaces at 0.9000 x nominal
accommodated consideration characteristically typographical internationalization lilililililbomo limomom
and the rest of this case sits on the second line.

case B15: 5 spaces, first line 409.321pt, bringing "rilibemum" up needs each of 6 spaces at 0.8499 x nominal
accommodated consideration characteristically typographical responsibility lisumumumumum rilibemum
and the rest of this case sits on the second line.

case B20: 5 spaces, first line 407.044pt, bringing "rilimemum" up needs each of 6 spaces at 0.8005 x nominal
accommodated consideration characteristically typographical responsibility wamemumumum rilimemum
and the rest of this case sits on the second line.

case B25: 5 spaces, first line 404.811pt, bringing "lumumumo" up needs each of 6 spaces at 0.7496 x nominal
accommodated consideration characteristically typographical responsibility limemomomomo
lumumumo and the rest of this case sits on the second line.

case B30: 5 spaces, first line 417.560pt, bringing "lililawem" up needs each of 6 spaces at 0.7002 x nominal
accommodated characteristically consideration typographical internationalization liwumumumu
lililawem and the rest of this case sits on the second line.

case B35: 5 spaces, first line 415.316pt, bringing "limomom" up needs each of 6 spaces at 0.6493 x nominal
accommodated characteristically consideration typographical internationalization rililimumumu
limomom and the rest of this case sits on the second line.

case B40: 5 spaces, first line 413.050pt, bringing "rilibemum" up needs each of 6 spaces at 0.5999 x nominal
accommodated consideration characteristically typographical internationalization lililililiremum
rilibemum and the rest of this case sits on the second line.

case B50: 5 spaces, first line 411.532pt, bringing "rilimemum" up needs each of 6 spaces at 0.4996 x nominal

accommodated consideration characteristically typographical internationalization liwemomom
rilimemum and the rest of this case sits on the second line.

case C60: 12 spaces, first line 420.233pt, "lililamemumum" cannot come up; the line stretches its 12 spaces to 1.6012 x nominal
narrow shorter further printed margin column output handed spacing known amount engine temom
lililamemumum and the rest of this case sits on the second line.

case C120: 12 spaces, first line 402.347pt, "lililamemumum" cannot come up; the line stretches its 12 spaces to 2.2008 x nominal
margin output further engine known narrow before shorter printed width column spacing womo
lililamemumum and the rest of this case sits on the second line.

case N: 12 spaces, first line 436.678pt, "lililamemumum" cannot come up; the line stretches its 12 spaces to 1.0499 x nominal
spacing handed column printed amount shorter narrow decided further adjusted before margin lawomo
lililamemumum and the rest of this case sits on the second line.
